

Can you help us set a world record with your electric bike?

Would you like to win a bike rack to carry your electric bike or other cycle on your vehicle?

The current world record for the most electric bikes ridden simultaneously was set in Fountain Valley, California in June 2016 when 303 electric bikes were ridden along the Santa Ana River cycle way.

On 21<sup>st</sup> April 2018, the Marlborough Earth Day Party will be held at the Blenheim A & P Park and at 2pm we will attempt to beat this record – with your help.

We need 304 electric bikes and riders, or more, to cycle around a course at the A & P Park and will register all riders and record this event with photographs and video. If we do not achieve the world record we will set the New Zealand record, which is so far unclaimed.

***One lucky e-bike rider will win a heavy duty bike rack for their car! This is valued at over \$500 and has been generously donated by Spokesman Cycles.***

What do you need to do?

- Mark the date in your calendar - 21<sup>st</sup> APRIL 2018, A&P Park, Blenheim, 10am to 3pm
- Register at the Marlborough Earth Day Party well before 2.00pm
- Bring as many friends as possible with e-bikes and help us make history

**FREE ENTRY**

**REMEMBER TO REGISTER WELL BEFORE 2:00PM  
ON SATURDAY 21<sup>ST</sup> APRIL 2018 AT A&P PARK BLENHEIM  
AT THE 'MARLBOROUGH EARTH DAY PARTY'**
